3:20 p.m. -3:30 p.m.

Closing Remarks

The Honorable Brian Moran
Secretary of Public Safety and Homeland Security

Law Enforcement Technology Sub-Panel

RECOMMENDATIONS

Body-Worn Camera

Sub-Panel Recommendations

- The Sub-Panel recommended revisions to recommendation five to reflect concerns about lack of involvement by stakeholders in the development of agency policies. The Sub-Panel reached consensus on the language suggested by Chief Middleton for recommendation five. The following recommendations were adopted by the Sub-panel with the exception of recommendation two, which is still under consideration.
 - ✦ 1) All localities and state agencies that purchase body-worn cameras should have a policy in place governing their use and resulting data with regard to FOIA considerations and Library of Virginia retention policies prior to deploying cameras in the field.
 - ✦ 2) Localities and state agencies deploying body-worn cameras should consider implementing recommendations from DCJS' Body-Worn Camera Model Policy.
 - ✦ 3) All officers equipped with body-worn cameras should receive training on proper use and agency policies.
 - ✦ 4) Localities and the Commonwealth should recognize challenges and costs associated with body-worn cameras and pursue sustainable funding sources to support body-worn camera programs, which are significant tools for law enforcement, citizens, the Commonwealth and localities to improve accountability, transparency and public trust.
 - ✦ 5) Localities and state agencies should develop their policies with input from all potential stakeholders including, but not limited to, special interest groups, citizen groups, elected representatives, courts, defense attorneys, judges, Commonwealth's Attorneys, local government attorneys, school administrators and parents. The draft policy, and ultimately the final policy, should be made available to members of the community upon request.

Model Policy on Body-Worn Cameras

Developed by:

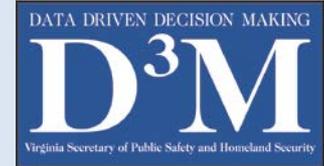

Virginia Department of Criminal Justice Services

- The Department of Criminal Justice Services' (DCJS) Body Worn Camera Model Policy is intended to serve as a structured template to assist law enforcement agencies that wish to adopt a comprehensive Body Worn Camera policy.
- The DCJS Body Worn Camera Model Policy additionally serves as a resource that identifies current best practices for those agencies with existing policies.
- In developing a Body Worn Camera policy law enforcement agencies may need to modify the DCJS model policy to meet operational, staffing, and budget constraints while addressing the perspectives of criminal justice system stakeholders and community expectations.
- As with the implementation of any policy, internal discussion and consultation with any affected stakeholders is encouraged. Since this is relatively new technology and may have significant privacy issues, consultation with local legal counsel is strongly encouraged.
- The procedural language of the model policy is separated into the following sections:
 - ✦ Use of Body Worn Cameras Generally
 - ✦ Equipment
 - ✦ Officer/Deputy Responsibility
 - ✦ Supervisor Responsibility
 - ✦ Privacy and Restricted Use
 - ✦ Access
 - ✦ Video Retention
- The model policy was developed using language from the International Association of Chiefs of Police (IACP) Body Worn Camera Policy and the procedural language from body worn camera policies from six Virginia law enforcement agencies.

OFFICE OF THE SECRETARY OF
PUBLIC SAFETY & HOMELAND SECURITY

Secure Commonwealth Panel Meeting
November 19, 2015

Update: C-THIRA

Dr. Jeffrey Stern, State Coordinator

Virginia Department of Emergency Management

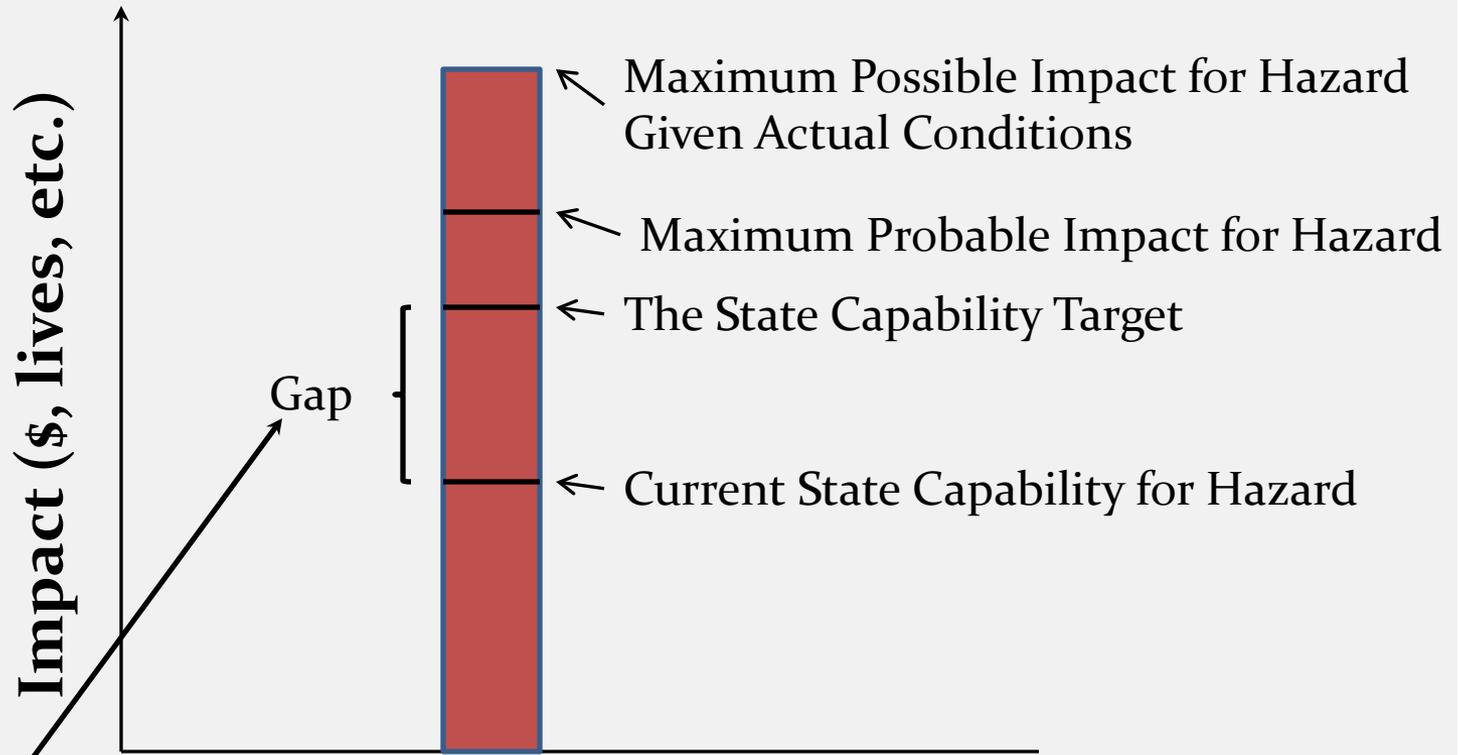

VIRGINIA DEPARTMENT OF EMERGENCY MANAGEMENT

C-THIRA Update

**Presentation to the
Secure Commonwealth Panel**

November 19, 2015

Dr. Jeffrey D. Stern, State Coordinator

For Each Hazard Identified in C-THIRA

The C-THIRA describes how we will close this Gap and how we intend to improve State Capability through future grants.

C-THIRA

C-THIRA

Identify Threats and Hazards (Chapter 1)

STEP 1

Identify Threats
and Hazards
of Concern

List of
Threats/
Hazards

Natural

- Hurricanes
- Earthquakes
- Winter storms
- Wildfires
- Avian influenza outbreaks
- Pandemic flu epidemics
- **Coronal mass ejections (CME)**

Technological

- Dam failures
- Radiological events

Human-caused

- Vehicle-borne improvised explosive devices (VBIED)
- Improvised nuclear devices (IND)
- **Coordinated small groups assaults**
- **Cyber attacks**

C-THIRA

STEP 2

Give Threats
and Hazards
Context

Context
Descriptions
for Threats/
Hazards

Context Descriptions (Chapter 2)

- Each threat/hazard is described as it relates to the risk it presents in Virginia.
- Contextualized based on:
 - Historical occurrence
 - Functional considerations
 - Geographical considerations

C-THIRA

STEP 3

Establish
Capability
Targets

Capability
Target
Statements

Core Capability Targets (Chapters 3, 4, and 5)

- Provides guidance on the specific types and levels of capability that the Commonwealth is expected to develop and sustain.
- Over 60 goals the Commonwealth intends to accomplish.
- Goals are now more realistic and achievable.

C-THIRA

STEP 4

Apply the
Results

Resource
Requirements

Next Steps (Chapter 6)

- Enhancing collaboration between local and state emergency managers, first responders, federal, private, and non-profit partners, and our citizens.
- Resource counting in the regions.

2015-2016

STRATEGIC ROADMAP FOR EMERGENCY MANAGEMENT IN VIRGINIA

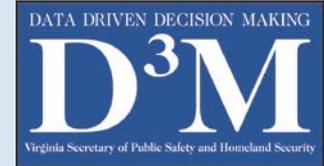

OPERATING ENVIRONMENT & RISK SCAN (RISK = T | V | C)

bakken crude **ISIL** **hurricanes** **cybersecurity** **flooding**
ebola **critical infrastructure** **state budget deficit**

Update: Secure Commonwealth Plan Revision Sub-Panel

Adam Thiel

Deputy Secretary of Public Safety and Homeland Security

OFFICE OF THE SECRETARY OF PUBLIC SAFETY & HOMELAND SECURITY

Requirement (§ 2.2-222.1):

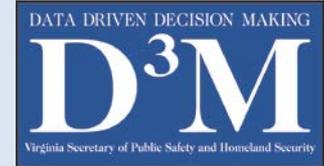

- Establish a plan, include:
 - Goals
 - Proponents
 - Prescribe metrics

Vision – *A framework that is:*

- Flexible
- Adaptable
- Relevant
- Sustainable
- Considers rapidly evolving threats including fiscal constraints

OFFICE OF THE SECRETARY OF PUBLIC SAFETY & HOMELAND SECURITY

Document Structure

- SCP Description
- The Framework Strategy
- Foundation/Background
- Virginia Risk Environment
- Implementation

Our Evolving Environment

Threats

- Weather
 - Sea level rise
 - Space
 - Unusual patterns
- Cyber
- Globally connected terrorism

Challenges

- Fiscal constraints
- Emerging international interest in critical infrastructure ownership
- Ability to quickly adapt, respond

OFFICE OF THE SECRETARY OF PUBLIC SAFETY & HOMELAND SECURITY

Goals for 2016

- Goal 1: Enhance Emergency Management and Response Capabilities
- Goal 2: Strengthen Counter Terrorism and Law Enforcement Capabilities
- Goal 3: Enhance Citizen and Community Preparedness Capabilities
- Goal 4: Enhance Cyber Security Capabilities
- Goal 5: Support Health Emergency Preparedness
- Goal 6: Enhance Statewide Restoration and Recovery Capabilities
- Goal 7: Strengthen CBRNE Preparedness and Response Capabilities
- Goal 8: Protect Critical Infrastructure and Key Resources
- Goal 9: Strengthen Intelligence and Information-Sharing Capabilities
- Goal 10: Strengthen Interoperable and Emergency Communication Capabilities
